RESUME

Nimisha K. Choudhari
Graphic Designer

Hello, I'am a Designer

I'm a curious learner who turns everyday observations into visual stories. For me, design isn't just how it looks - it's what it means. I love that "click" moment when an idea feels right, especially when working on packaging and craft based design. I see design as a language - one that connects, builds, and leaves an impression through the smallest details. That's where real emotion and great design begins.
